

# LORs, Media Archives, Podcasting...

Mikkel Godsk, the E-learning Unit, University of Aarhus

- ...what is requested?
- ...what is used?
- ...how to facilitate?
- ...which systems to use?
- ...etc.

# The Challenge

- Use of video, podcasts, audio, and interactive learning materials is increasing
- Unclear true needs and demands
- Unclear how these media and technologies can be facilitated and which systems to use

# The Objectives

- The aim of this working group is to address
  - the utility of the different media, technologies, and systems
  - the needs and wishes of the students and instructors
  - experimenting with various systems
  - the “EUNIS-status”

# Possible Tasks

- A survey of the IT/media usage, needs and wishes
- A (continuous) overview and discussion of systems
- Reviewing and testing systems
- A survey (snap shot) of used systems within EUNIS
- To scan for similar projects and their results
- Knowledge sharing through EUNIS paper(s) on
  - System reviews results
  - Results of survey of the IT/media needs and wishes
  - Snap shots about used systems
